## SUMMARY

---

Seeking a challenging role in computer science and engineering to utilize my technical skills and problem solving abilities , contribute to the development of innovative software solutions.

## TECHNICAL SKILLS

---

**Programming Languages:** Java, C, C++

**Web Development:** HTML, CSS, javascript, Bootstrap, Servlets, JSP, JDBC, Hibernate

**Tools:** MySql, VsCode, Eclipse, Postman

**Courses:** DBMS, OOPS, Data Structures, Operating System

## PROJECTS

---

### Blogging Website

*Bootstrap, Servlet, JSP, MySQL, java*

- Developed a dynamic and interactive blogging website that enables users to seamlessly create, edit, delete, and interact through liking and commenting on posts.
- Additionally, users could manage their profiles, enhancing the overall user experience.
- This project demonstrated my proficiency in full-stack web development and MVC design patterns

### Chatting Application

*Java, XML, Firebase*

- Developed a real-time chatting application for Android using Java, XML, and Firebase technologies.
- Integrated Firebase for authentication and realtime messaging.
- Utilized Firebase plugins and APIs to ensure secure and seamless communication, notifications, and user management.

## ACHIEVEMENTS

---

### Hackathon

17 Sept – 18 Sept 2022

*TECH-A-THON 2.0*

*Jaipur*

- Led a team of four developers to create a real-time blogging website using Frontend technologies and java as backend.
- Implemented features for instant messaging and push notifications within 48 hours.
- Solved Over 300+ coding questions on various platforms.

## EDUCATION

---

### Indore Institute of Science and Technology

Indore

*B.Tech in Information Technology, CGPA : 8.35*

2020 – 2024

### Vivekanand Vidya vihar Higher Secondary School

*PCM, 88.4*

2016 – 2020

## CERTIFICATIONS

---

- Introduction to java - Udemy
- AI for everyone - EDX
